

Synthetic PDF evidence corpus

38 non-email documents | 12 historical clients

A companion to Separate Account Navigator. All organizations, facts and outcomes in this collection are fictional. This pack preserves existing evidence identifiers; it does not claim that PDF ingestion has been connected to the hosted app.

What is in the pack

4 current-client records: draft IMA, trustee investment policy, indicative transfer inventory and prerequisite approval register. 5 operating references: current and superseded reporting capability, rule implementation controls, transition/derivatives readiness and review routing. 29 historical records: exception reviews, retrospectives, reporting annexes, guideline reviews and a staged-transition decision memo.

How to demonstrate reasoning

Ask the agent	Evidence to compare	Human decision
Why is Monday reporting at risk?	N02; O01 versus O02; H01-S and H05-S	Reporting owner validates scope; client agrees service
What happens at exactly 5% tobacco revenue?	N02 versus N03; H02-G; N04	Legal/client resolve intent; FI PC tests boundary
Can we reuse a prior coal rule?	N03; H08-G; O03	Client defines scope; do not import a prior threshold
Could launch be staged?	O04; H03-T; N04	Client/PM and operations assess and approve conditions

Load and cite carefully

Use the initial client intake and custodian emails alongside these PDFs; this is the non-email portion of the corpus. Keep O02 as an explicit superseded distractor, never current authority. Store document ID, passage ID, PDF page, date, version and status with each extracted chunk. Deduplicate against existing markdown by document ID so the same evidence is not counted twice.

Keep predictions honest

Historical rework is evidence for prioritization, not a forecast probability. The five matching Swiss/CHF/weekly-request cases include a successful prevention case. Four recorded reporting rework; their affected-case median was 10 business days. Workstream days can overlap and must not be summed into a launch-delay prediction.

Document index

ID	Document	Pages
N02	Draft IMA - Schedule A, investment guidelines and service annex	1
N03	Trustee investment policy - approved client policy excerpt	1
N04	Indicative transfer list and data-quality note	2
N05	Opportunity prerequisites and planning boundary	1
O01	Reporting service capability matrix	1
O02	Archived reporting capability - pilot description	1
O03	Guideline implementation dictionary and rule-change controls	1
O04	Transition and derivatives readiness note	1
O05	Swiss-client review routing note	1
H01-E	Alpinecrest Foundation - exception or preventive-action record	1
H01-C	Alpinecrest Foundation - closure and lessons	1
H02-E	Northbridge Endowment - exception or preventive-action record	1
H02-C	Northbridge Endowment - closure and lessons	1
H03-E	Seabrook Insurance - exception or preventive-action record	1
H03-C	Seabrook Insurance - closure and lessons	1
H04-E	Lakeshore Pension Trust - exception or preventive-action record	1
H04-C	Lakeshore Pension Trust - closure and lessons	1
H05-E	Rhinebridge Pension Foundation - exception or preventive-action record	1
H05-C	Rhinebridge Pension Foundation - closure and lessons	1
H06-E	Aster Pension Foundation - exception or preventive-action record	1
H06-C	Aster Pension Foundation - closure and lessons	1
H07-E	Juniper Charitable Trust - exception or preventive-action record	1
H07-C	Juniper Charitable Trust - closure and lessons	1
H08-E	Cedar Vale Pension Plan - exception or preventive-action record	1
H08-C	Cedar Vale Pension Plan - closure and lessons	1
H09-E	Harbor Civic Reserve - exception or preventive-action record	1

ID	Document	Pages
H09-C	Harbor Civic Reserve - closure and lessons	1
H10-E	Montrose Retirement Trust - exception or preventive-action record	1
H10-C	Montrose Retirement Trust - closure and lessons	1
H11-E	Eastgate University Endowment - exception or preventive-action record	1
H11-C	Eastgate University Endowment - closure and lessons	1
H12-E	Maple Peak Reserve - exception or preventive-action record	1
H12-C	Maple Peak Reserve - closure and lessons	1
H01-S	Alpinecrest - accepted reporting annex	1
H02-G	Northbridge - restriction redline and implementation review	1
H03-T	Seabrook - staged transition decision	1
H05-S	Rhinebridge - service acceptance and successful outcome	1
H08-G	Cedar Vale - coal interpretation and data exceptions	1
