

Draft IMA - Schedule A, investment guidelines and service annex

Synthetic document facsimile - prepared for demonstration only.

Document / version	Record date	Owner / status
N02 / 3.0	2026-09-10	Legal / current

DRAFT - UNSIGNED / Schedule excerpt

This is a synthetic schedule excerpt, not a complete investment management agreement. No signature or execution authority is represented.

N02§1 | Tobacco exclusion

The Manager shall not purchase securities issued by companies deriving more than 5% of annual revenue from tobacco production. The schedule is silent on parent aggregation, data provider and unavailable revenue data.

N02§2 | Thermal coal exclusion

Investment in companies involved in thermal coal is prohibited. This draft does not define extraction, power generation, distribution, a revenue threshold, or treatment of mixed business models.

N02§3 | Reporting and derivatives

Weekly CHF performance, attribution and ESG analytics shall be delivered by Monday 08:00 Zurich. FX forwards and interest-rate futures are within the proposed permitted instruments. This document is unsigned; client correspondence alone does not update the contract.

N02§4 | Draft precedence

This is IMA draft version 3, not an executed instruction. Resolve conflicts against the client policy with Legal and the client. Prior client contract language is a precedent for review, not authority to modify this mandate.

Evidence provenance

Source record: N02; original format: Contract. The numbered passages preserve the existing demo corpus. PDF formatting does not grant additional authority to a draft, prior-client precedent or archived record.
