N04§1 | Funding arithmetic

Indicative funding: USD-equivalent 200 million securities and 50 million cash, total 250 million. Twelve positions comprise two sovereigns of 55 million and 45 million, plus ten corporate bonds of 10 million each. Each corporate holding is 4% of the total proposed 250 million NAV.

N04§2 | Potential watch positions

Alder Tobacco Holdings: tobacco production 5.0%, thermal-coal extraction 0%, value 10 million. Granite Basin Resources: tobacco 0%, coal extraction 12%, value 10 million. Meridian Industrials: tobacco revenue missing, coal revenue missing, value 10 million. All names and identifiers are fictional.

N04§3 | Data limits and disposition

The other seven corporate issuers have known tobacco and coal-extraction revenue of 0%. Values are indicative and do not establish settlement eligibility. A missing field is unknown, not zero. No sale, rejection, retention or cash substitution has been authorized. Quantify scenarios and obtain client/PM decisions before transition instructions.

Schedule 1 | Indicative position inventory

Expanded synthetic labels for the unnamed positions in N04 section 1. All amounts are USD-equivalent millions; these are not security identifiers or settlement instructions.
