

Swiss-client review routing note

Synthetic document facsimile - prepared for demonstration only.

Document / version	Record date	Owner / status
O05 / 1.0	2026-09-09	Legal and Client Reporting / current

O05§1 | Country-specific review

Swiss domicile and CHF reporting are routing signals for Legal and Client Reporting review. This fictional note does not assert a Swiss law requiring weekly reporting, a particular tax form or a specific investor classification. The weekly requirement in this case originates from the client request.

O05§2 | Open classification questions

Ask Legal to verify the entity, governing documents, permitted service and applicable requirements using authoritative current sources in a real onboarding. No regulation corpus is included in this synthetic demo. The assistant must report this evidence gap rather than invent a country-specific legal requirement.

Evidence provenance

Source record: O05; original format: Review note. The numbered passages preserve the existing demo corpus. PDF formatting does not grant additional authority to a draft, prior-client precedent or archived record.
