

Seabrook - staged transition decision

Synthetic document facsimile - prepared for demonstration only.

Document / version	Record date	Owner / status
H03-T / 1.0	2025-11-21	Historical PM and Client RM / historical

H03-T§1 | Client choice

The client retained three unresolved positions outside the new account and substituted cash. The PM accepted a bond-only start while derivative documentation completed. Ten business days of derivative rework did not mean an automatic ten-day launch delay.

H03-T§2 | Limits on reuse

The team assessed currency and duration implications and enforced a derivative restriction until later readiness approval. A new pension mandate requires its own suitability and client decision; copying this decision would bypass accountability.

Evidence provenance

Source record: H03-T; original format: Decision memo. The numbered passages preserve the existing demo corpus. PDF formatting does not grant additional authority to a draft, prior-client precedent or archived record.
