H04-C§1 | Resolution

A coordinated review agreed report scope, tested the guideline boundary and separated derivative activation from cash-bond readiness. The original date moved by five business days; workstream days must not be added.

H04-C§2 | Reusable action

A joint intake review exposed the shared data dependencies and produced a revised launch sequence.

H04-C§3 | Non-transferable assumptions

A different custodian and earlier platform version; estimates are evidence for review, not a current commitment.
