

Eastgate University Endowment - exception or preventive-action record

Synthetic document facsimile - prepared for demonstration only.

Document / version	Record date	Owner / status
H11-E / 1.0	2026-07-10	Historical GCS Operations / historical

H11-E§1 | Observed event

No transferred securities, bespoke restriction interpretation or derivative activation was requested.

H11-E§2 | Risk mechanism

A standard cash-funded equity account required a different onboarding route.

H11-E§3 | Outcome coding

Synthetic recorded workstream rework, in business days: reporting=0; guidelines=not applicable; transfer=not applicable; derivatives=not applicable; benchmark=0. Zero means no recorded rework in this closed case; it is not a universal absence of risk. Workstream intervals can overlap.

Evidence provenance

Source record: H11-E; original format: Case record. The numbered passages preserve the existing demo corpus. PDF formatting does not grant additional authority to a draft, prior-client precedent or archived record.
