

Maple Peak Reserve - closure and lessons

Synthetic document facsimile - prepared for demonstration only.

Document / version	Record date	Owner / status
H12-C / 1.0	2026-07-31	Historical GCS Operations / historical

H12-C§1 | Resolution

No tracked transfer or derivatives rework was recorded. A longer target window is not itself proof of readiness.

H12-C§2 | Reusable action

Keep a full-scope launch option when evidence supports its dependencies and the client accepts the date.

H12-C§3 | Non-transferable assumptions

Standard service, longer timetable and GBP reporting reduce comparability to a compressed CHF case.

Evidence provenance

Source record: H12-C; original format: Retrospective. The numbered passages preserve the existing demo corpus. PDF formatting does not grant additional authority to a draft, prior-client precedent or archived record.
