Indicative custody and transfer file

Custody confirmation

Alpine Custody Services AG (fictional) | Account AC-DEMO-7712 | Report date 11 September 2026. Indicative holdings are USD-equivalent market values provided by the custodian for demo analysis; they are not face values or executable instructions.

Security / issuer	USD m	Tobacco %	Coal %
DEMO-GOV-01 Republic of Northvale	55	0	0
DEMO-GOV-02 Kingdom of Westhaven	45	0	0
DEMO-COR-01 Alder Tobacco Holdings	10	5	0
DEMO-COR-02 Granite Basin Mining	10	0	12
DEMO-COR-03 Meridian Industrials	10	Missing	Missing
DEMO-COR-04 Cedar Telecom	10	0	0
DEMO-COR-05 Harbor Utilities	10	0	2
DEMO-COR-06 Orion Healthcare	10	0	0
DEMO-COR-07 Summit Rail	10	0	0
DEMO-COR-08 Pine Technology	10	0	0
DEMO-COR-09 Lumen Consumer	10	1	0
DEMO-COR-10 Brookfield Demo Bank	10	0	0

Indicative in-kind total: USD 200m. Separate planned cash: USD 50m. Total mandate: USD 250m. Security identifiers are deliberately nontradeable demo IDs.

Settlement and control notes

The custodian can provisionally support 23 November subject to final eligible-securities list, confirmed market access, reconciled account details, signed instructions and independently verified settlement details. No bank routing numbers, account credentials or wire instructions are included.

Corporate issuer exposure is measured against total USD 250m account NAV, not just the USD 200m transfer file. Each USD 10m corporate parent position is 4%; government rows are exempt only from the corporate-issuer concentration cap.

ESG measures are synthetic percentages of issuer revenue. Missing values must remain unknown. Dataset timestamp is 11 September; refresh is required before funding. A September screen is not valid proof of November readiness.

Testable seeded outcomes after D09 clarification

Alder Tobacco Holdings at exactly 5% fails the agreed $\geq 5\%$ tobacco rule. Granite Basin Mining at 12% fails the agreed $\geq 10\%$ thermal-coal extraction rule. Meridian Industrials has missing ESG data and goes to review; it is not automatically compliant.

Illustrative transition choice: retain these three USD 10m positions with the outgoing manager and replace USD 30m of in-kind funding with cash. Proposed revised mix is USD 170m in-kind + USD 80m cash. This is a planning proposal, not an order to sell or transfer.
